About Lahontan Gold Corp:

Lahontan Gold Corp. is a Canadian mineral exploration company that holds, through its US subsidiaries, three top-tier gold and silver exploration properties in the Walker Lane of mining friendly Nevada. Lahontan’s flagship property, the 18 km² Santa Fe Project, is a past producing gold and silver mine with excellent potential to host significant gold and silver resources (past production of 345,000 ounces of gold and 710,000 ounces of silver between 1988 and 1992; Nevada Bureau of Mines and Geology, 1996). Modeling of over 110,000 metres of historic drilling, geologic mapping, and geochemical sampling outline both shallow, oxidized gold and silver mineralization as well as deeper high grade potential resources. The Company plans an aggressive 25,000 metre drilling program with the goal of publishing a National Instrument 43-101 (“**NI 43-101**”) compliant mineral resource estimate in 2022.
