## Information Contained In This Presentation

This presentation (the “**Presentation**”) has been prepared by Lahontan Gold Corp. (the “**Company**”) solely for informational purposes. None of the Company, its affiliates or any of their respective employees, directors, officers, contractors, advisors, members, successors, representatives or agents makes any representation or warranty as to the accuracy or completeness of any information contained in this Presentation and shall have no liability for any representations (expressed or implied) contained in, or for any omissions from, this Presentation. This Presentation shall not constitute an offer, nor a solicitation of an offer, of the sale or purchase of securities. This Presentation does not constitute an offering of securities of the Company and under no circumstances is it to be construed as a prospectus or advertisement or public offering of securities.

No securities regulatory authority or similar authority has reviewed or in any way passed comment upon the document or the merits of the Company’s securities and any representation to the contrary is an offence. Except where otherwise indicated, the information contained in this Presentation has been prepared by the Company and is given as of the date hereof. The delivery of this Presentation shall not imply that the information herein is correct as of any date after the date hereof.

## Market and Industry Data

This Presentation includes market and industry data that has been obtained from third party sources, including industry publications. The Company believes that the industry data is accurate and that the estimates and assumptions are reasonable, but there is no assurance as to the accuracy or completeness of this data. Third party sources generally state that the information contained therein has been obtained from sources believed to be reliable, but there is no assurance as to the accuracy or completeness of included information. Although the data is believed to be reliable, the Company has not independently verified any of the data from third party sources referred to in this Presentation or ascertained the underlying economic assumptions relied upon by such sources. References in this Presentation to reports and publications should not be construed as depicting the complete findings of the entire referenced report or publication. The Company does not make any representation as to the accuracy of such information.

## Cautionary Note Regarding Forward-looking Information

This Presentation contains “forward-looking information” within the meaning of applicable Canadian securities laws. Forward-looking information includes, but is not limited to, information with respect to the Company’s strategy, plans or future financial or operating performance, and advancements at the Company’s properties; Any expectations with respect to defining mineral resources or mineral reserves on any of the project’s any expectation with respect to any permitting, development or other work that may be required to bring any of the projects into production; any expectation that any of the projects can be brought back into production rapidly or expeditiously; any expectations as to future exploration potential for any of the projects; any expectation as to the outcome or success of any proposed programs for any of the projects; any expectation that market conditions will warrant future production from any of the projects; statements with respect to the transaction (the “Transaction”) with Energy Fuels Inc. (“Energy Fuels”), the timing of closing of the Transaction and the impact on the Company’s operations; any expectation that any future production payments will become due and payable and be paid. Generally, but not always, forward looking information and statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes” or the negative connotation thereof or variations of such words and phrases or statement that certain actions, events or results “may”, “could”, “would”, “might” or “will be taken”, “occur” or “be achieved” or the negative connotation thereof.

Forward-looking information is based on the Company’s current expectations, beliefs, assumptions, estimates and forecasts about the Company’s business and the industry and markets in which it operates. Such forward information and statements are based on numerous assumptions, including among others, the availability of financing, the accuracy of previous exploration records and results, that the results of planned exploration activities are as anticipated, the cost of planned exploration activities, that third party contractors, equipment and supplies and governmental and other approvals required to conduct the Company’s planned exploration and development activities will be available on reasonable terms and in a timely manner and that general business and economic conditions will not change in a material adverse manner. Although the assumptions made by the Company in providing forward looking information or making forward-looking statements are considered reasonable by management at the time, there can be no assurance that such assumptions will prove to be accurate.

Forward-looking information and statements also involve known and unknown risks and uncertainties and other factors, which may cause actual results, performances and achievements of the Company to differ materially from any projections of results, performances and achievements of the Company expressed or implied by such forward-looking information or statements. These factors include receipt of certain regulatory approvals in connection with the completion of the Transaction; the satisfaction of closing conditions; potential conflicts of interest between the Company and Energy Fuels; the costs associated with bringing any of the projects back into production; risks that historical mineral estimates can be updated and be verified to be current mineral resources or Mineral Reserves; permitting and regulatory delays; litigation risks; competition from others; market factors, including future demand for and prices realized from the sale of uranium and vanadium; government actions that could restrict or eliminate the ability to mine on public lands, such as through the creation or expansion of national monuments or through mineral withdrawals; the policies and actions of foreign governments, which could impact the competitive supply of and global markets for uranium and vanadium; the Company’s expectations in connection with the production and exploration, development and expansion plans at the projects discussed herein being met; changes in national and local government legislation, taxation, controls or regulations and/or changes in the administration or laws, policies and practices; the impact of general business and economic conditions; fluctuating metal prices; currency exchange rates; the impact of inflation; general risks of the mining industry; failure of plant, equipment or processes to operate as anticipated; unanticipated results of future studies; seasonality and unanticipated weather changes; success of exploration activities, permitting timelines, government regulation; environmental risks; unanticipated reclamation expenses; and/or title disputes or claims.

Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those contained in the forward-looking information or implied by forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements or information. The Company undertakes no obligation to update or reissue forward-looking information as a result of new information or events except as required by applicable securities laws.

The footnotes, endnotes and appendices to this Presentation contain important information.

The Technical information in this presentation has been reviewed by Tony Gesualdo M.Sc., who is a Qualified Person as the term is defined in NI 43-101.

# LARGE-SCALE GOLD OXIDE DEPOSITS WALKER LANE, NEVADA USA

## GOLD & SILVER ASSETS IN THE WALKER LANE

**NEVADA #1  
JURISDICTION IN THE  
USA**

**SANTA FE MINE**

**PAST PRODUCER**

- HEAP LEACH GOLD & SILVER OPERATION
- 1.7M OUNCES MRE
- OXIDE OXIDE OXIDE

**WEST SANTA FE**

**SATALLITE ASSET**

- OXIDE STARTS AT THE SURFACE
- 13 K AWAY FROM OUR FLAGSHIP

**MOHO MINE**

**HIGH GRADE GOLD &  
SILVER**

- MULTIPLE VEIN SYSTEM
- HISTORIC GRADES 25 G/T GOLD & 300 G/T SILVER

# WHY INVEST IN LAHONTAN

## SANTA FE MINE LARGE-SCALE GOLD OXIDE DEPOSITS WALKER LANE, NEVADA USA

### NEVADA

- # 1 Jurisdiction in the USA
- Straight Forward Permitting

### SIZE & SCALE

- +1.7 Million Ounces & Growing
- District Scale Land Package
- Multi-Million Ounce District

### EXCELLENT INFRASTRUCTURE

- Year-round access, substation on site, access to three water wells
- Adjacent to an operating mine

### PAST PRODUCER

- Santa Fe Mine is a mine under closure-enables fast-track back to production

### MANAGEMENT & BOARD- PROVEN TRACK RECORD

- Strong support, Victoria Gold 34% stakeholder, Management ownership 10%

# MANAGEMENT & BOARD

**KIMBERLY ANN, FOUNDER,  
DIRECTOR, CEO, PRESIDENT**

**BRIAN MAHER, FOUNDER,  
VICE PRESIDENT - EXPLORATION**

**JOHN MCNEICE,  
CHIEF FINANCIAL OFFICER**

**JOHN MCCONNELL  
CHAIR**

**CHRIS DONALDSON,  
INDEPENDENT  
DIRECTOR**

**JOSH SERFASS,  
INDEPENDENT  
DIRECTOR**

**BOB MC KNIGHT,  
INDEPENDENT  
DIRECTOR**

An aerial photograph of a vast, arid desert landscape. In the foreground, there are several small, rocky mounds and a dirt road winding through the terrain. The middle ground shows a wide, flat valley with sparse vegetation. In the background, a range of rugged, brown mountains stretches across the horizon under a clear blue sky.

# 100% Controlled SANTA FE MINE Five Known Deposits

# MAIDEN RESOURCE ESTIMATE 2023

## 1.11 MILLION OUNCES INDICATED AND 0.55 MILLION OUNCES INFERRED PIT CONSTRAINED RESOURCE\*

SANTA FE LAND PACKAGE & NEIGHBORS

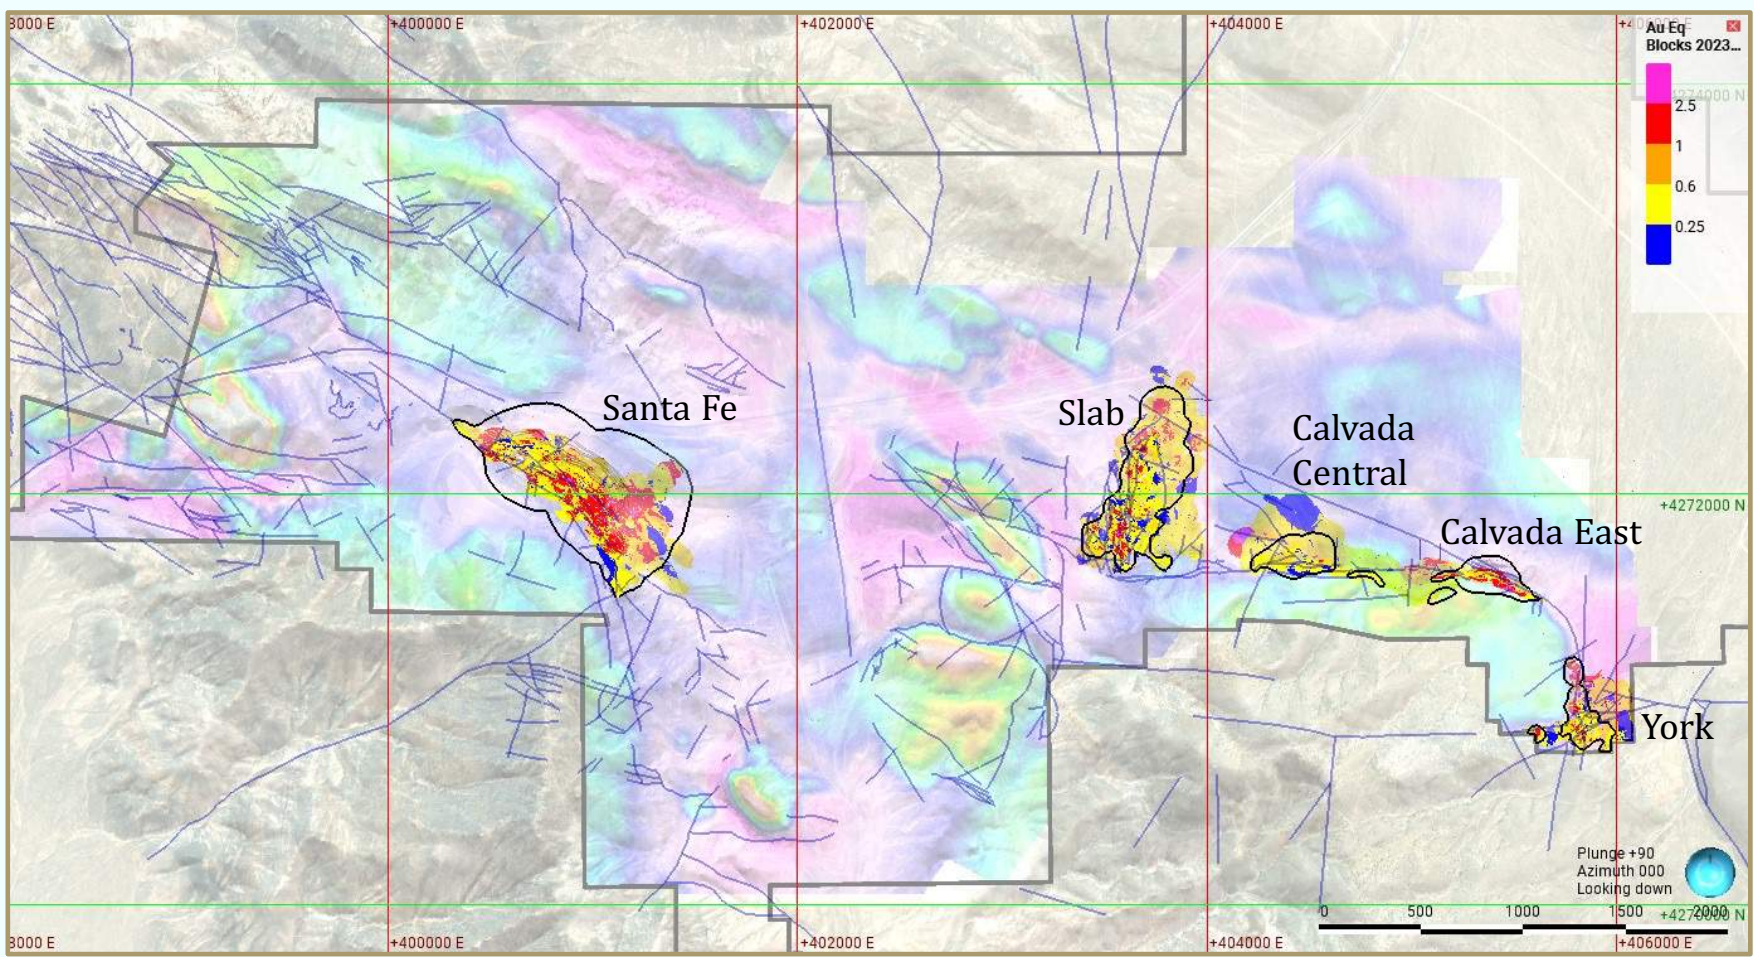

\*Please see Appendix One for detailed Mineral Resource Estimate.

- 1 **AVERAGE GRADE 1.12 G/T Au Eu**
- 2 **INDICATED AND INFERRED RESOURCES**
  - Occur in five separate deposits
  - Resource constrained by conceptual pits
- 3 **OXIDE DOMAIN RESOURCES**
  - 64% of the Indicated Au Eq ounces (712k oz grading 1.03 g/t Au Eq);
  - 48% of the Inferred Mineral Resources (262k ounces grading 0.73 g/t Au Eq) \*
- 4 **HISTORIC PRODUCTION BREAKDOWN**
  - 345,499 ounces Au
  - 710,629 ounces of Ag with 1.1 g/t Au Eq average grade (NBMG, 1996)

# SANTA FE MINE

## UNIQUE GEOLOGIC SETTING

## WHAT TO KNOW

### SANTA FE MINE

- 1 TRIASSIC CALCAREOUS HOST ROCKS**
  - All five deposits hosted by same rock types
- 2 KEY STRUCTURAL DEMAINS**
  - NW, northerly and easterly faults
  - All favorable for Au & Ag mineralization
- 3 OPEN, OPEN, OPEN**
  - Open between deposits, along strike, and at depth

## MULTIPLE TARGETS YET TO BE TESTED

\*Please see Appendix One for detailed Mineral Resource Estimate.

# SANTA FE DEPOSIT

## SIGNIFICANT OXIDE REMAINING IN HIGH-WALL

### WHAT TO KNOW

#### SANTA FE MINE

1. **SANTA FE PIT OXIDES**
  - 573,000 Au Eq oz Indicated
  - 186,000 Au Eq oz Inferred
2. **+1 g/t OXIDE GOLD**
  - Mineralization crops out in the pit bottom and high-wall
3. **2024 FUTURE DRILLING**
  - Defining how big the pit will become!

# SLAB CALVADA COMPLEX

## EXPLORATION DRILL HIGHLIGHTS FROM 2023

### SANTA FE DEPOSIT

### WHAT TO KNOW

### SANTA FE MINE

1. **RELEASED MAIDEN MRE 2023**
  - 1.7 Million ounces
2. **RESOURCE EXPANSION DRILLING**
  - Completed +3500 metres focused on oxide ounces starting at the surface
3. **HIGHLIGHTS INCLUDE**
  - 38.1 metres grading 0.89 g/t Au Eq of oxide in CAL23-004
  - 82.3 metres grading 0.70 g/t Au Eq of oxide in CAL13-001R
4. **PEA TO BEGIN Q2 2024**

MULTIPLE TARGETS YET TO BE TESTED

\*Please see Appendix One for detailed Mineral Resource Estimate.

# SLAB CALVADA COMPLEX

How do our ounces compare to our peers?

# NEVADA JUNIOR EXPLORERS SNAPSHOT BY GRADE AND OUNCES “OPEN PIT”

Nevada-Great Basin Junior Explorers - Total Gold OP Resource Ave  
Grade (gpt)

- 1 LG OPEN PIT RESOURCE GRADES
- Rank among the highest-grade in Nevada & Great Basin for explorers when compared to open-pit (OP) heap leach projects

- 2 MAIDEN RESOURCE SHOWS
- 1.7M ounce Au deposit\* with multi-million-ounce potential

- 3 HOW BIG IS SANTA FE???

Nevada-Great Basin Jr Explorers -  
Total Gold OP Resource (M Oz)

# SANTA FE DISTRICT 2024 BASELINE STUDIES & PLAN OF OPERATION

## WHAT TO KNOW SANTA FE MINE

1

### BASE LINE STUDIES

- Utilized in a Plan of Operations (“POO”) covers a 12.2 km<sup>2</sup> area
- Includes studies of botanical, raptor, cultural resources

2

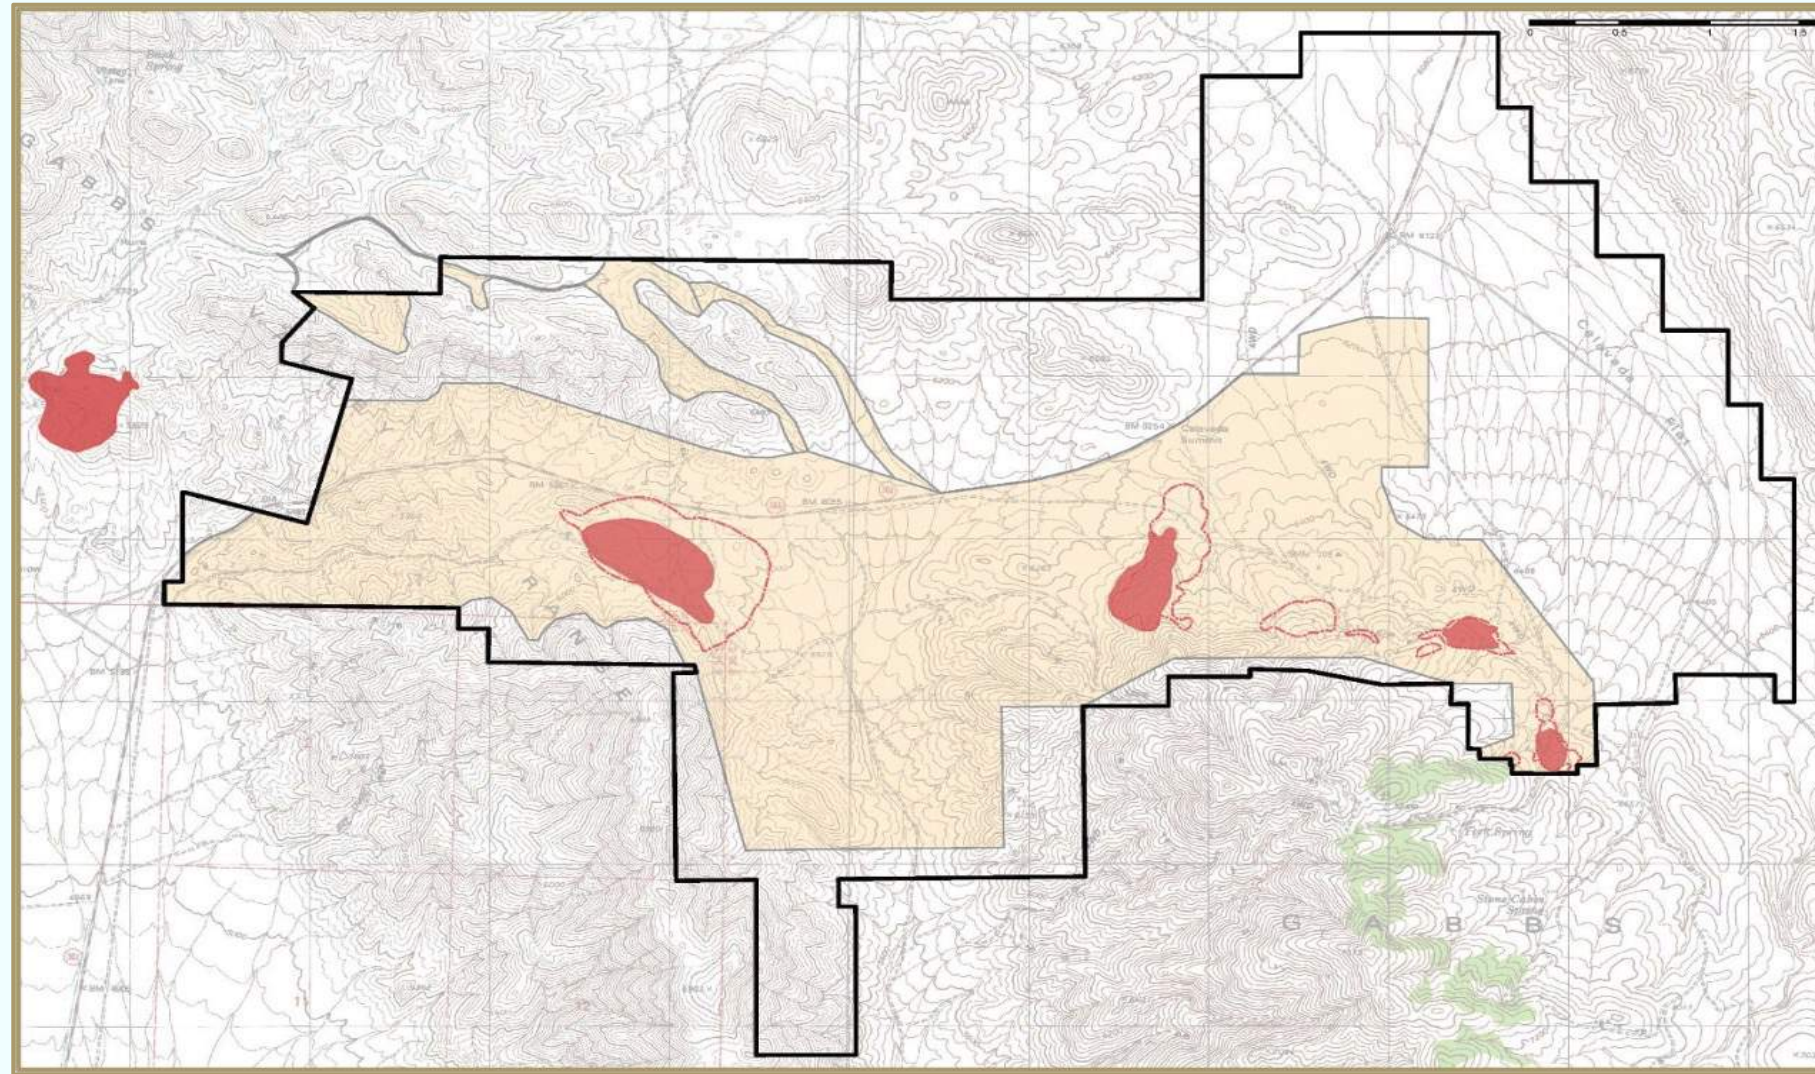

### Pathway to Production & Resource Expansion

- This permits allows LG to streamline the process back into production & drill project wide

3

### EXPLORATION CONTINUES

- During POO process drilling can continue under a (NOI) Notice of Intent

SETTING THE STAGE FOR FUTURE EXPLORATION

# SANTA FE TIMELINE 2024

## BASELINE STUDIES & PLAN OF OPERATION

# EXTENSIVE MET TESTING REPORT 2024

## METALLURGY REVIEW BY KAPPES CASSADY (KCA):

Project breakdown	Bottle Roll Tests	Column Tests
Santa Fe	32	25
Slab	30	5
Calvada East	45	8
York	15	3

1

### ESTIMATED WEIGHTED PROJECT

- Wide gold recoveries of **74.4%** for gold and **29.0%** for silver at a ½-inch crush size

2

### TEST HEAP

- 1,860-ton crushed and agglomerated test heap of Santa Fe pit mineralization yielding a **73.8%** overall gold recovery

3

### KCA RECOMMENDS

- KCA recommends four additional column tests for Slab and Calvada mineralization to optimize crush size

4

### MET TESTING AGREES!!!!

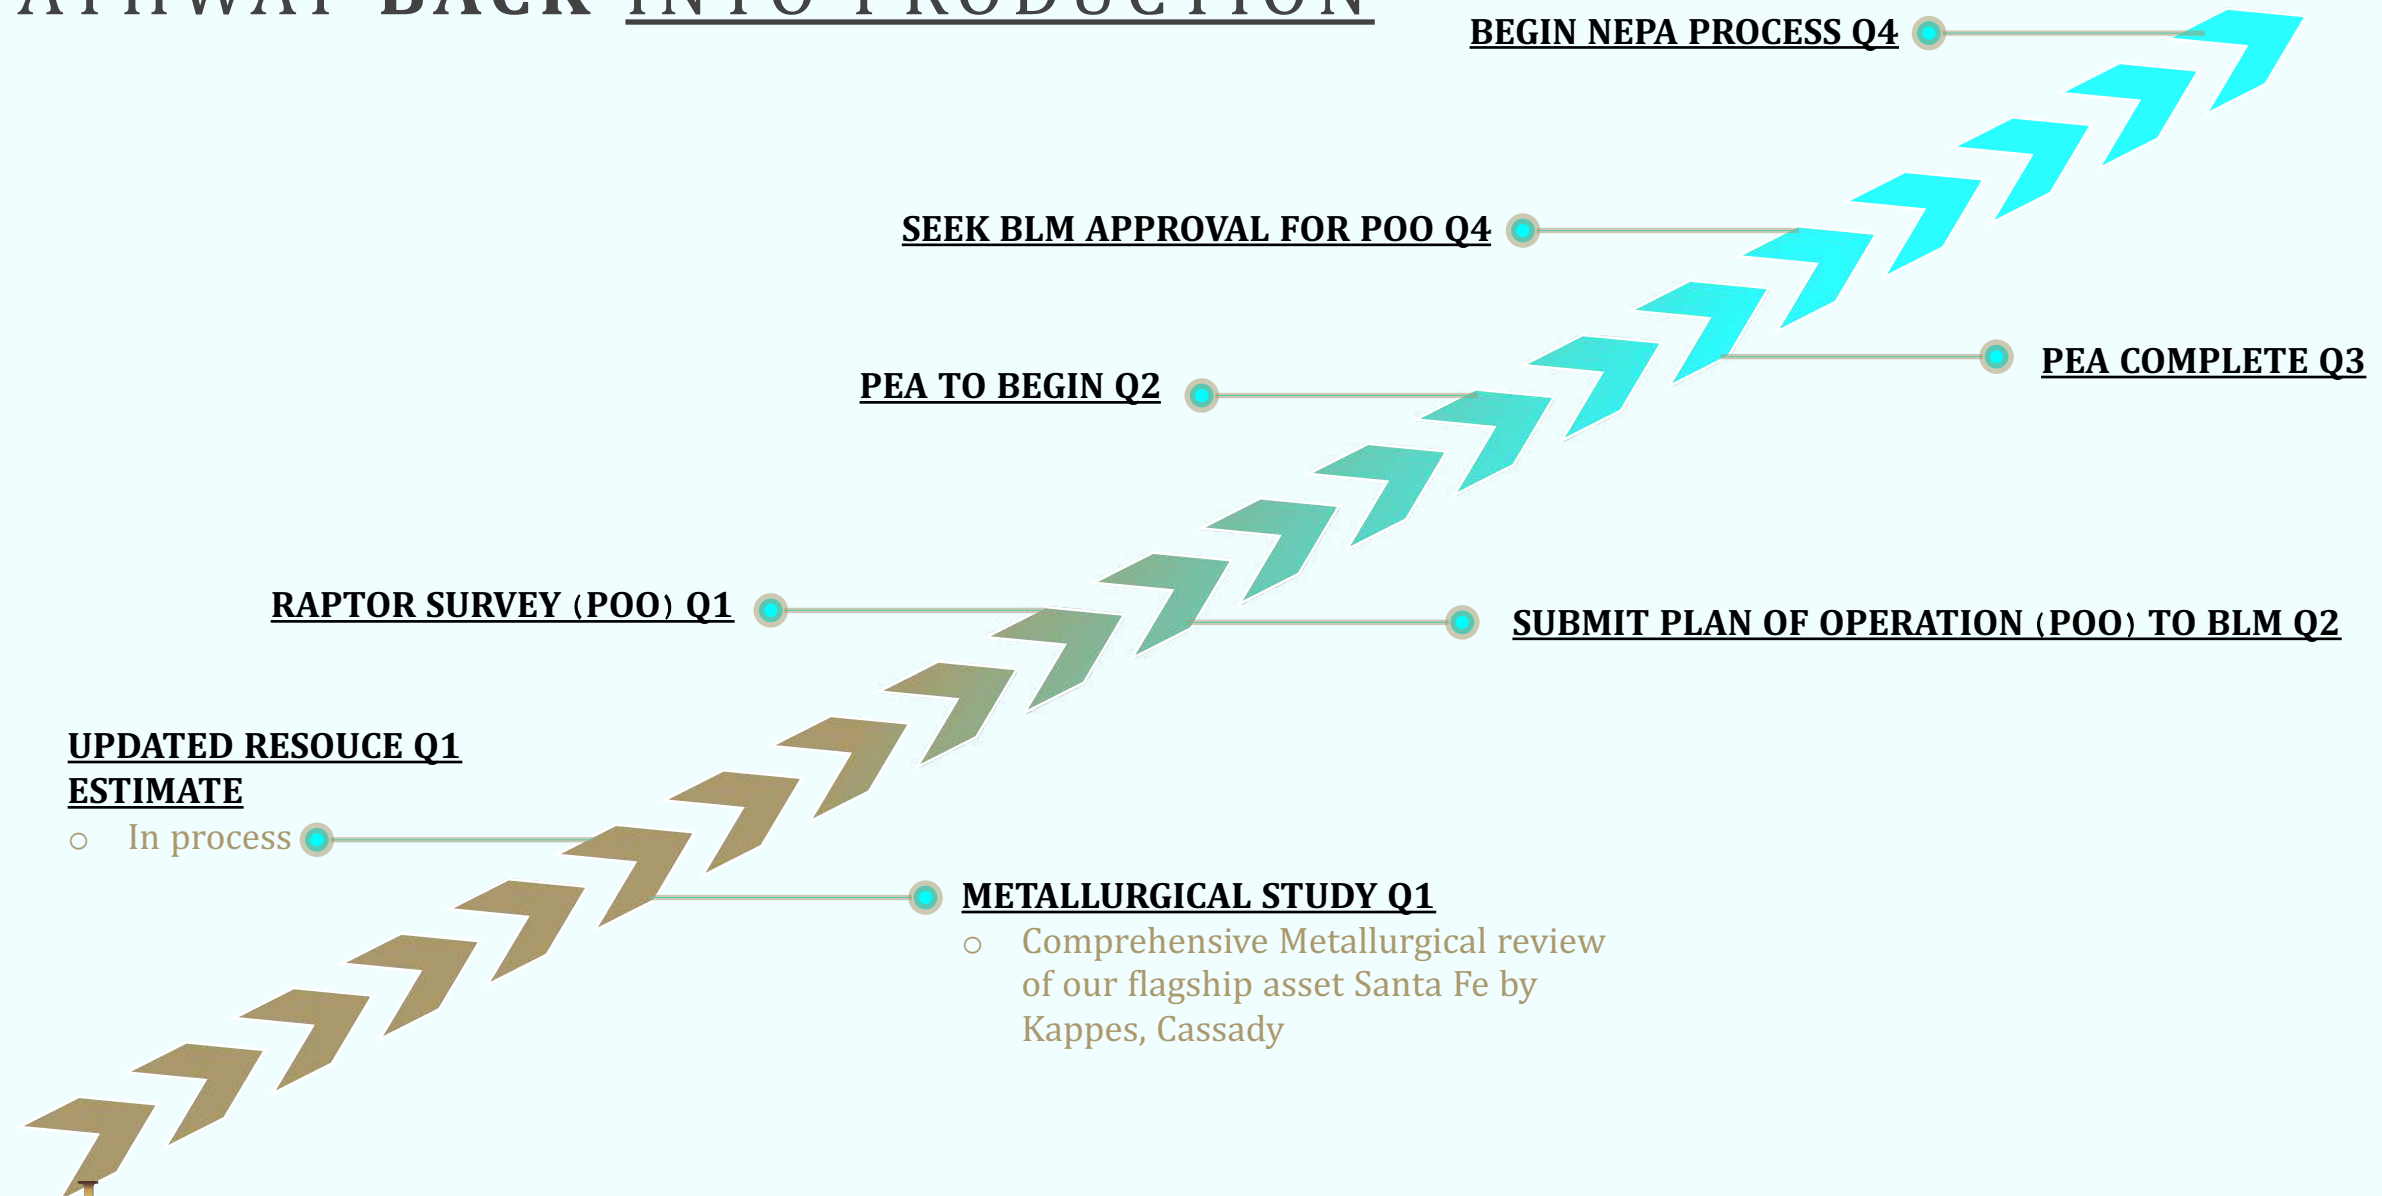

- Met testing data agrees well with historic recoveries

# SANTA FE MINE 2024

## PATHWAY BACK INTO PRODUCTION

# INTRODUCING WEST SANTA FE

## OUR NEW SATELLITE ASSET

# WEST SANTA FE OXIDE OXIDE OXIDE

## WHAT TO KNOW WEST SANTA FE

1

### LOCATION LOCATION LOCATION

- Located only 13 km west of the Flagship Santa Fe Mine

2

### DISTRICT SCALE LAND PACKAGE

3

### SIGIFICANT HISTORIC DATABASE

- Outlines a shallow oxide Au & Ag deposit of + 0.5–1.0M ounces starting at surface\*

4

### SANTA FE LOOK-A-LIKE

- Open-pit mining configuration with low-cost potential as a satellite to Santa Fe

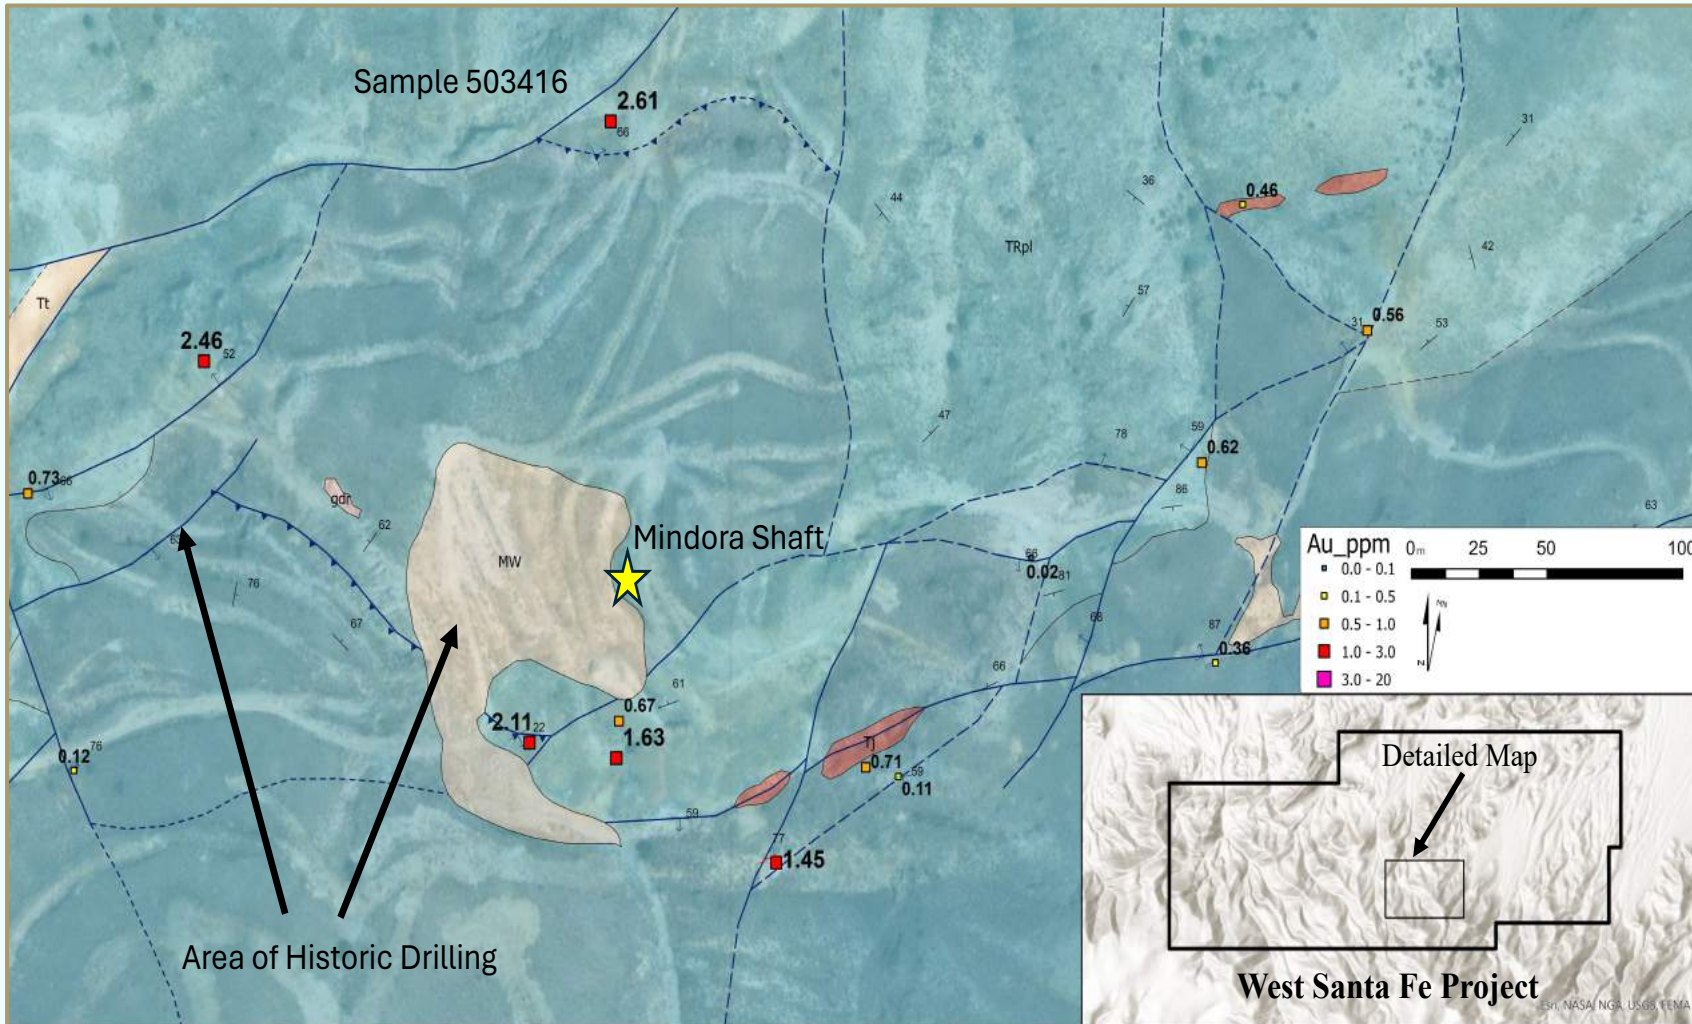

\*The exploration target at West Santa Fe is conceptual in nature and is based on the size of the known mineralized zones, and gold and silver grades from historical drilling. The qualified person has not completed sufficient work to verify the historical information on West Santa Fe and this information should not be relied on.

# WEST SANTA FE

## HIGH-GRADE SURFACE SAMPLING

## WHAT TO KNOW

### WEST SANTA FE

1

#### WELL DEFINED STRUCTURE

- Sampling and mapping has helped identify structural controls to Au & Ag mineralization
- Intersections of northeast striking high-angle fault and low-angle thrust faults are key controls

2

#### ROCK CHIP SAMPLES

- Contains up to **2.61 g/t Au** and **899 g/t Ag** (14.60 g/t Au Eq)

3

#### HIGH GRADE SILVER

- Historic drilling underscore the importance of Ag at West Santa Fe

Gold grades in g/t are shown against a backdrop of mapped fault structure. Note that the highest grades encountered are adjacent to the areas of historic drilling and expand the potential target size at West Santa Fe.

# WEST SANTA FE LOW-COST OPTION AGREEMENT

1

## **OPTION AGREEMENT TO ACQUIRE 100% OF THE PROPERTY**

- Back-end loaded payments for seven years can be made with combination of shares and cash
- Total Buyout \$1.8M

2

## **MODEST EXPLORATION COMMITMENT AS PER THE AGREEMENT**

- Total expenditures over seven years \$1.4M sufficient to define maiden mineral resource estimate

3

## **2% ROYALTY WITH 1%; BUYDOWN FOR \$200,000**

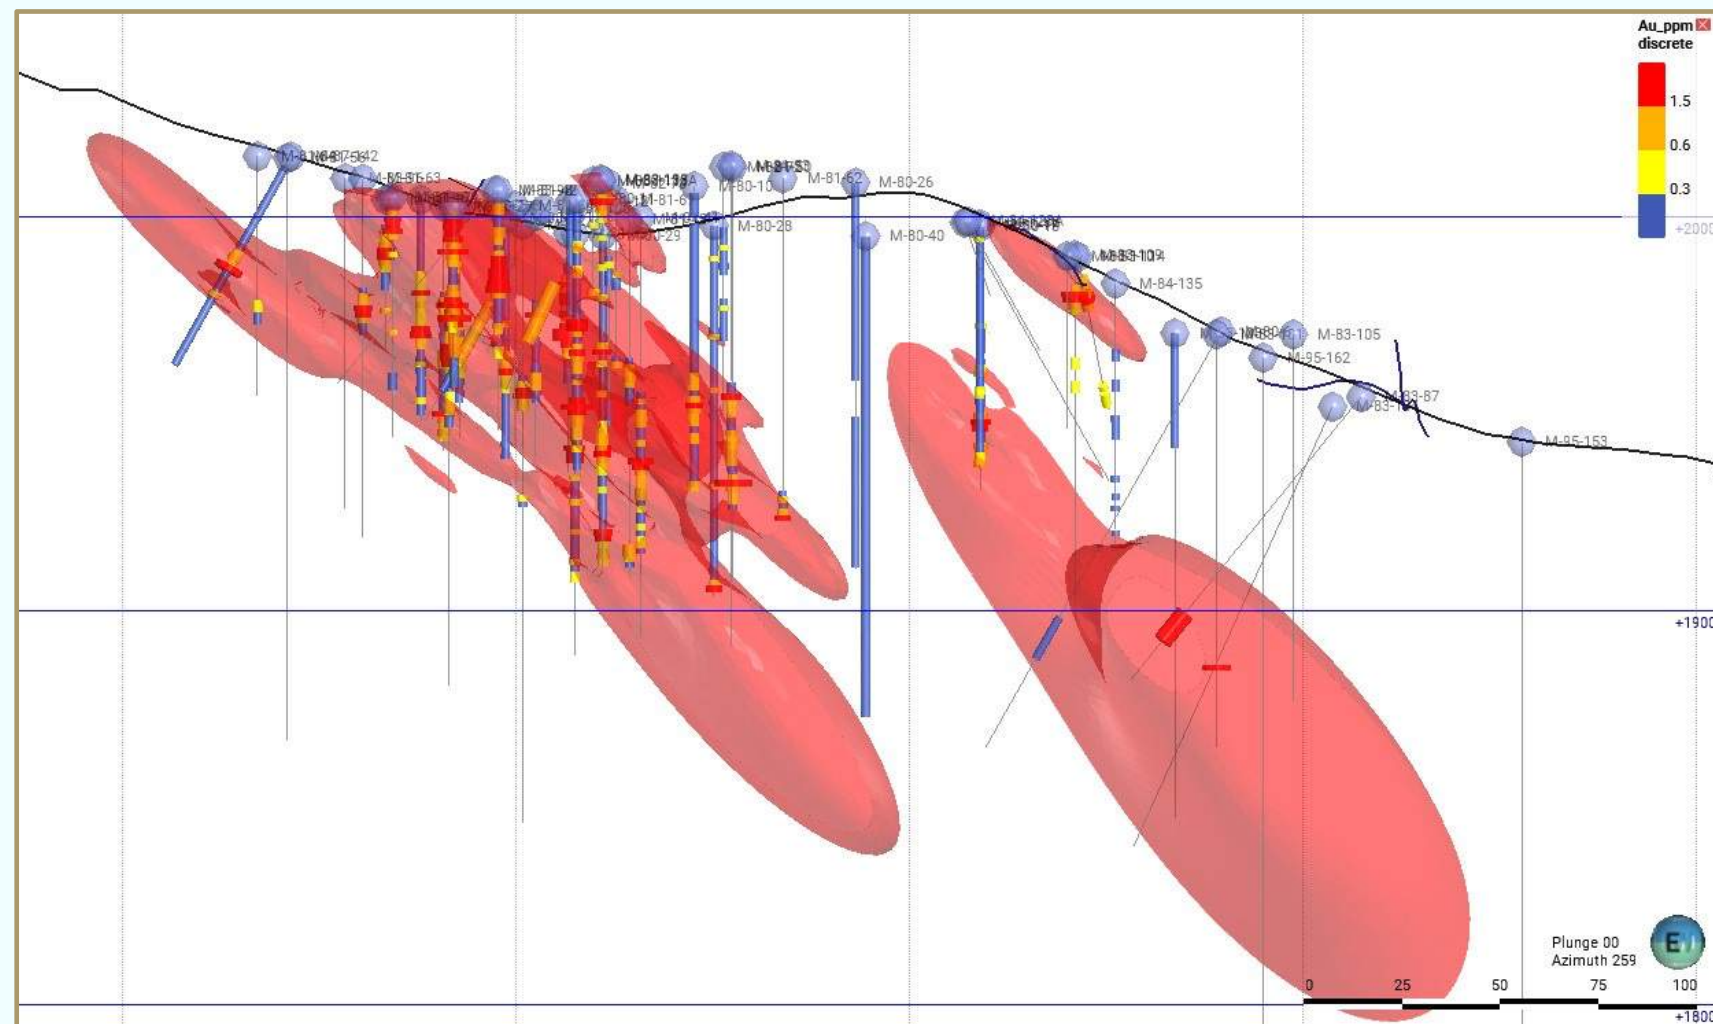

# WHAT TO KNOW WEST SANTA FE

- Au & Ag begins at surface
- Mineralization continues down-rake
- All Oxide!!!

- Look alike to Santa Fe
- Possible low-cost satellite operation
- Historic drilling shows a large mineralized system of Au & Au\*

- 3000 metres of drilling planned
- Maiden resource planned

\*The exploration target at West Santa Fe is conceptual in nature and is based on the size of the known mineralized zones, and gold and silver grades from historical drilling. The qualified person has not completed sufficient work to verify the historical information on West Santa Fe and this information should not be relied on.

## Market Cap for Great Basin Junior Explorers: Cdn\$/Oz Au Eq OP Resource

Average \$20 in market capitalization per resource ounce\*

\*Source: Stockwatch, January 8, 2024; Company disclosure

The background of the slide is a wide-angle photograph of a desert landscape at dusk or dawn. The sky is filled with dramatic, dark clouds, with a bright light source (the sun) visible on the horizon, creating a silhouette effect on the clouds and the terrain. The foreground shows a dry, hilly landscape with sparse, low-lying vegetation. In the middle ground, a dark-colored SUV is parked on a dirt road. To the right, a single, dark, leafy tree stands on a hill. The overall mood is rugged and expansive.

# Appendix – Santa Fe Mine Royalties

## 26.4 km<sup>2</sup> LAND PACKAGE

- 389 unpatented lode mining claims
- 67 unpatented mill site claims
- 24 patented lode mining claims
- Except for 45 optioned unpatented lode mining claims, all mining claims are 100% owned by Lahontan

**Over 85% of known resources unencumbered by royalties**

# SANTA FE MINE PROJECT NOW 26.4km<sup>2</sup>

## WHAT TO KNOW

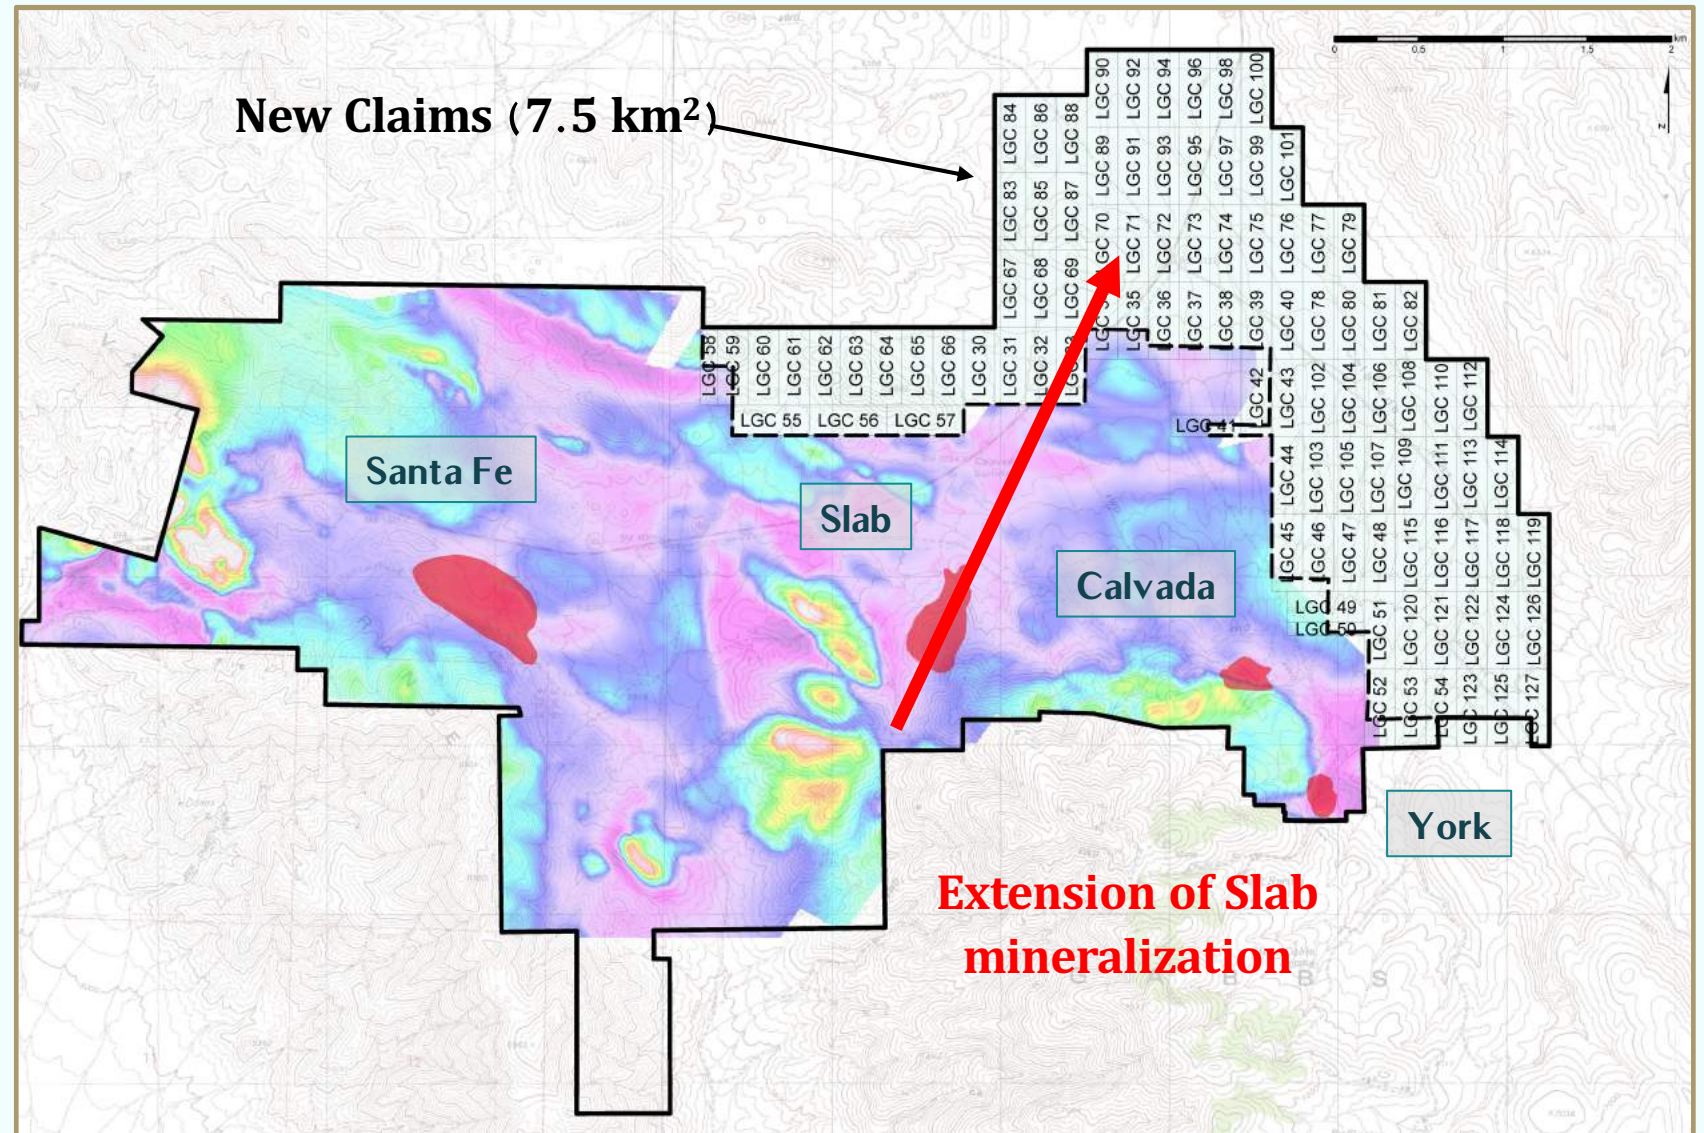

### SANTA FE MINE

#### 26.4 km<sup>2</sup> Land Package:

- 389 unpatented lode mining claims, 67 unpatented mill site claims
- 24 patented lode mining claims. All **100% owned or controlled by Lahontan**

#### NEW UNPATENETED LODE CLAIMS:

- 98 unpatented lode mining claims cover potential extensions to Slab Au & Ag resources
- New claims acquired by low-cost staking cover 7.5 km<sup>2</sup>.
- Flat terrain ideal for heap leach pads and mine infrastructure

## Notes to Tables One and Two:

1. Mineral Resources have an effective date of December 7, 2022. The Mineral Resource Estimate for the Santa Fe Mine was prepared by Trevor Rabb, P.Geo., of Equity Exploration Consultants Ltd., an independent Qualified Person as defined by NI 43-101.
2. Mineral Resources are not Mineral Reserves and do not have demonstrated economic viability. Inferred Resources are considered too speculative geologically to have economic considerations applied to them that would enable them to be classified as Mineral Reserves. An Inferred Mineral Resource has a lower level of confidence than that applying to an Indicated Mineral Resource and must not be converted to a Mineral Reserve. It is reasonably expected that most of the Inferred Mineral Resources could be upgraded to Indicated Mineral Resources with continued exploration.
3. Resources are reported in accordance with NI43-101 Standards of Disclosure for Mineral Projects (BCSC, 2016) and the CIM Definition Standards for Mineral Resources and Mineral Reserves (CIM, 2014).
4. Mineral Resources were estimated for gold and silver using a combination of ordinary kriging and inverse distance cubed within grade shell domains.
5. Mineral resources are reported using a cut-off grade of 0.25 g/t AuEq for oxide Resources and 0.60 g/t AuEq for non-oxide Resources. AuEq for the purpose of cut-off grade and reporting the Mineral Resources is based on the following assumptions gold price of US\$1,770/oz gold, silver price of US\$22.00/oz silver, and oxide gold recoveries ranging from 77% to 60%, oxide silver recoveries ranging from 40% to 55% and non-oxide gold and silver recoveries of 71%.
6. An optimized open-pit shell was generated using Lerchs-Grossman algorithm to constrain the Mineral Resources utilizing the following parameters: gold price of US\$1,770/oz gold, silver price of US\$22/oz silver, gold selling costs of US\$56/oz gold, and silver selling costs of US\$3/oz silver. Mining costs for ore and waste of US\$2.20/t, crushing cost of US\$2.71/t, processing cost (oxide) US\$6.80/t, processing cost (non-oxide) US\$25/t, G&A cost US\$3.99/t. Royalties for the Slab, York and Calvada deposits are 1.25%, and maximum pit slopes of 50 degrees.
7. Totals may not sum due to rounding.
8. Please see Santa Fe Mine project Technical Report available on SEDAR or the Company's website.
